As we celebrate Father's day this coming Sunday, we are reminded of the pivotal role Fathers play in the lives of our children.

As Fathers, God has put us all in the lives of our children not just to be a vessel to which they were born, but for us to be mentors, friends and guide.

Lets examine few scriptures:

Proverbs 22:6 "Start children off on the way they should go, and even when they are old they will not turn from it."

Joshua 24:15 "But as for me and my household, we will serve the Lord."

Ephesians 6:4 "Fathers, do not exasperate your children; instead, bring them up in the training and instruction of the Lord."

Our responsibilities as Fathers goes far beyond Physical provision of food, clothing , and the basic needs. Our children need us to guide and lead them, especially in todays' world where Technology seems to have taken over the role of fathers, and where some children are being left to navigate life on their own.

As we spend the day with our children, let's make use of the opportunity to get to know our children more.

Prayer

Almighty God, we thank you for the gift of Fatherhood. We pray for all Fathers to receive the wisdom, courage and resources needed to lead our children so they can be the best you have created them to be. We remember those that have lost their fathers either through death or other circumstances, that you will comfort and be with them in Jesus name we pray.

Happy fathers Day to all Fathers

What Parents & Educators Need to Know about PALWORLD

In Palworld, players head out into an environment where they must craft items and survive alongside creatures called 'Pals'. In this sense, it's similar to Minecraft: fight monsters while maintaining a base. Palworld has sold more than six million copies and often has over two million people playing online simultaneously.

WHAT ARE THE RISKS?

MATURE CONTENT

18
CENSORED

While Palworld may look cute and cuddly, the game does have its more mature moments. For example, if you try to catch a Pal and don't succeed, the game displays a mild swear word. There are also minor references to inhumane acts like slavery when getting your Pals to perform certain tasks for you. While the presentation is intended to be humorous, this could still be seen as being in poor taste.

VIOLENCE

Palworld has been referred to as "Pokémon with guns" and with good reason. As the game progresses, Pals can be given firearms, explosives and other weapons, allowing them to fight by the player's side. There are several moments where cute animals use these guns to kill other Pals or fight against bosses. The violence is cartoonish and bloodless, but it's present.

SUGGESTIVE WRITING

Some of the Pals' descriptions - found in the game menu - can be very suggestive and adult in nature. The game makes a joke at balancing on the line between age-appropriate and mature content; playing on the contrast between the two while never being outright explicit. While it's possible that younger players won't notice this content, it's just as conceivable that they will.

ONLINE PLAY

Palworld can be played with other people online. On Xbox, players can only play with people on their friends list. On PC, however, up to 32 players can share in the same game, playing in a large online world, and these players may not necessarily be known to the host beforehand. It can be quite complicated to set up these servers. However, it can be quite complicated to set up these servers (online worlds) and they cost money to keep active.

DIFFICULTY

Despite its endearing visuals, Palworld is actually an extremely difficult game in places: defeating bosses, catching Pals and exploring the environment can all be very tricky. It takes a lot of skill - or working together with a friend - to be successful, which could be off-putting or even aggravating to a player expecting something more like Minecraft or Pokémon.

Advice for Parents & Educators

WATCH GAMEPLAY

Watching gameplay and reviews for Palworld on sites like YouTube is the best available means of gathering information on it, second only to playing it for yourself. Currently, there are plenty of videos showing this game off to the internet at large, along with detailed breakdowns of what can be found or done within it.

LEND A HAND

By learning the basics of the game - Pal catching, battling, crafting items and building up a base - you can help to lower the difficulty for younger players. This, in turn, decreases the likelihood that such players will need to look online for tips and tricks, where they could quite easily stumble across more violent and mature content associated with the game.

SET CONTENT LIMITS

As Palworld is available on Xbox Game Pass, it's easy for players to access it. Any player subscribed to this service can simply find the title on Game Pass and hit the download button. If a child or young person isn't allowed to play Palworld, the best way to prevent them downloading it regardless is to enable age limits on their account. Setting the limit below 13 will not allow users to install Palworld.

PLAY TOGETHER

By playing Palworld yourself, you'll have the best chance of catching any content that you don't think is suitable for children, as well as getting an idea of how violence is presented in the game. The conflict is cartoonish in nature - until players and Pals unlock the ability to use guns, at which point it can become more intense. It's likely best for you to give it a look and form your own opinion.

PLACE BOUNDARIES

Limit options when it comes to online play. For players on PC, they'll still be able to cooperate with friends through the game's multiplayer option, much like Xbox users. Just because they have the option to run a dedicated server that's open to anyone doesn't mean they need to take it. The risks of interacting with strangers can be significantly lowered or even eliminated entirely by playing on servers which are restricted to friends only.
